

Democracy Live – Accessible Voting Technologies. Anytime. Anywhere.

In too many states, voters with disabilities don't have equal access to voting independently and privately from home. Fortunately, there are new accessible at-home voting technologies now available.

The Democracy Live OmniBallot accessible at-home voting system is a fully ADA Section 508, WCAG 2.1 compliant remote ballot marking solution. The system has been tested to meet the accessibility requirements of over 90 combinations of browsers, operating systems, screen readers and devices. OmniBallot has been deployed as an accessible absentee tool since 2008, in over 4,000 elections, serving 3,000 jurisdictions, in 27 states and 96 countries around the world. OmniBallot has been tested and reviewed by members of most every leading disability organization in the nation.
